

MNC04 Coal Training Package (revised)

The MNC98 Black Coal Training Package was endorsed in September 1998. The review of the Training Package with two phases began in early 2001 and was completed in December 2003.

The Training Package has been revised to address the needs of all aspects of the brown and black coal industry including underground coal mining, open cut/surface coal mining, coal preparation and treatment.

The title of the Training Package was also changed from Black Coal to Coal to incorporate skills for mining of both black and brown coal varieties.

Throughout the review process, representatives from industry, industry associations (employers and unions) and training organisations were consulted to ensure that the revised Training Package reflects industry needs.

Relevant regulatory authorities in Victoria, New South Wales, Queensland and Western Australia have had specific input into the review, particularly in the areas concerning licensing requirements.

Qualification Outcomes:

MNC20104	Certificate II in Surface Coal Operations
MNC20204	Certificate II in Coal Preparation
MNC20304	Certificate II in Underground Coal Operations
MNC30104	Certificate III in Surface Coal Mining Operations
MNC30204	Certificate III in Coal Preparation
MNC30304	Certificate III in Underground Coal Operations
MNC40104	Certificate IV in Surface Coal Mining (Open Cut Examiner)
MNC40204	Certificate IV in Surface Coal Mining
MNC40304	Certificate IV in Underground Coal Mining
MNC50104	Diploma of Surface Coal Mining Management
MNC50204	Diploma of Underground Coal Mining Management
MNC50304	Diploma of Mine Mechanical Engineering
MNC50404	Diploma of Mine Electrical Engineering
MNC50504	Diploma of Mine Surveying
MNC60104	Advanced Diploma of Surface Coal Mining Management
MNC60204	Advanced Diploma of Underground Coal Mining Management
MNC60304	Advanced Diploma of Mine Mechanical Engineering
MNC60404	Advanced Diploma of Mine Electrical Engineering

MNC04 Coal Training Package - Qualifications Equivalence

Qualifications in Coal Training Package MNC98		Qualifications in Coal Training Package MNC04		
MNC20198	Certificate II in Coal Operations	MNC20104	Certificate II in Surface Coal Operations	The Certificate II in Coal Operations covered both surface and underground streams. This has now been split into 2 qualifications one for surface and for underground. The work required for the new qualifications is equivalent to the old qualification
		MNC20304	Certificate II in Underground Coal Operations	
		MNC20204	Certificate II in Coal Preparation	New qualification
MNC30198	Certificate III in Coal Operations	MNC30104	Certificate III in Surface Coal Mining Operations	The Certificate III in Coal Operations covered both surface and underground streams. This has now been split into 2 qualifications one for surface and for underground. The work required for the new qualifications is equivalent to the old qualification
		MNC30304	Certificate III in Underground Coal Operations	
		MNC30204	Certificate III in Coal Preparation	New qualification
MNC40202	Certificate IV in Surface Coal Mining - Open Cut Examiner	MNC40104	Certificate IV in Surface Coal Mining (Open Cut Examiner)	These qualifications are equivalent
MNC40198	Certificate IV in Coal Operational Management	MNC40204	Certificate IV in Surface Coal Mining	The Certificate IV in Coal Operations covered both surface and underground streams. This has now been split into 2 qualifications one for surface and for underground. The work required for the new qualifications is equivalent to the old qualification
		MNC40304	Certificate IV in Underground Coal Mining	
MNC50298	Diploma of Surface Coal Mining	MNC50104	Diploma of Surface Coal Mining Management	The qualifications are equivalent, but the pre-requisite for Certificate IV in Surface Coal Mining (Open-Cut Examiner) as entry to the qualification has been removed
MNC50198	Diploma of Coal Operational Management (Underground)	MNC50204	Diploma of Underground Coal Mining Management	These qualifications are equivalent
MNC50402	Diploma of Mine Mechanical Engineering Management	MNC50304	Diploma of Mine Mechanical Engineering	These qualifications <u>are not equivalent</u> . New units have been included for mine mechanical management.
MNC50202	Diploma of Mine Electrical Engineering - Surface	MNC50404	Diploma of Mine Electrical Engineering	The new qualification has been structured to meet the requirements of both surface and underground coal mines. The work required to achieve the new qualification is equivalent to either of the old qualifications.
MNC50302	Diploma of Mine Electrical Engineering - Underground			

Qualifications in Coal Training Package MNC98		Qualifications in Coal Training Package MNC04		
MNC50602	Diploma of Mine Surveying	MNC50404	Diploma of Mine Surveying	These qualifications are equivalent
MNC60202	Advanced Diploma of Surface Coal Mining	MNC60104	Advanced Diploma of Surface Coal Mining Management	These qualifications are equivalent
MNC60198	Advanced Diploma Of Coal Operational Management (Underground)	MNC60204	Advanced Diploma of Underground Coal Mining Management	These qualifications are equivalent
		MNC60304	Advanced Diploma of Mine Mechanical Engineering	New qualification
		MNC60404	Advanced Diploma of Mine Electrical Engineering	New qualification
