

RII06 Resources and Infrastructure Civil Construction Training Package

Units of competency and qualifications at Certificate II and III level are contained in the current endorsed BCC03 Civil Construction Training Package.

The newly developed RII Resources and Infrastructure Civil Construction Training Package covers the additional qualifications which were not included in the current BCC03 Civil Construction Training Package.

Six units of competency have also been identified as a “skill set” that would assist the Leading Hand/Team Leader fulfil a more responsible role within a team with limited supervision of others. Once achieved, it could contribute to a full RII40206 Certificate IV in Civil Construction Supervision.

The newly coded RII06 Training Package covers entry to the Civil Construction industry, higher technical operations, supervisory and management areas and civil construction design and the BCC03 Training Package covers the operational areas.

The BCC03 Civil Construction Training Package is expected to be subsumed into the RII06 Resources and Infrastructure Civil Construction Training Package by the end of 2006.

The NQC endorsed the RII06 Resources and Infrastructure Civil Construction Training Package on 14 July 2006 and approved by Ministers in August 2006.

Qualification Outcomes:

- RII10106 Certificate I in Resources and Infrastructure Operations;
- RII40106 Certificate IV in Civil Construction Operations;
- RII40206 Certificate IV in Civil Construction Supervision;
- RII40306 Certificate IV in Civil Construction Design;
- RII50106 Diploma of Civil Construction Management;
- RII50206 Diploma of Civil Construction Design;
- RII60106 Advanced Diploma of Civil Construction Management; and
- RII60206 Advanced Diploma of Civil Construction Design Management.

Skill set – Leading Hand/Team Leader

Competency Set - Leading Hand/Team Leader

The consultations carried out when developing RII06 have indicated that an accurate description of a Leading Hand/Team Leader is that

of a qualified operator who takes on more responsibility and accountability within a team with limited supervision of others. The knowledge and skill required by a Leading Hand/Team Leader, for equipment/plant applications is consistent with a Certificate III in Civil Construction from the BCC03 Training Package but still requires additional people management knowledge and skill to cover the range of required duties. The Competency Set identifies 6 Units of Competency that would assist the Leading Hand/Team Leader fulfil a more responsible role within a team with limited supervision of others.

Once achieved, these following Units of Competency could contribute to a full RII40206 Certificate IV in Civil Construction Supervision.

UNIT CODE	FIELD	UNIT TITLE	UNIT OF COMPETENCY
BSBFLM403B	General Operations	Implement effective workplace relationships	
BSBCMN402A	General Operations	Develop work priorities	
BSBCMN411A	Management	Monitor a safe workplace	
BSBCMN413A	Management	Implement and monitor environmental policies	
MNQGEN300A	Management	Apply risk management processes
