

RUV04 Animal Care and Management

The Veterinary Nursing Training Package was endorsed in June 1998. The review of the Training Package with two phases began in September 2000 and was completed in September 2003.

Phase one of the review resulted in a report highlighting proposed changes to be made to units of competency and qualifications, additional industry sectors to be developed and incorporated into the phase two re-development of the Training Package. The title of the Training Package was also changed from Veterinary Nursing to Animal Care and Management to cover the additional sectors.

The additional sectors included in the new Animal Care and Management Training Package are:

- Animal control and regulation;
- Animal technology;
- Captive animals; and
- Companion animal services.

To avoid unnecessary duplication, units have been also imported from other endorsed Training Packages such as the Laboratory Operations, Local Government, Public Services, Retail and Business Services Training Packages.

Qualification Outcomes:

RUV10104 Certificate I in Animal Studies
RUV20104 Certificate II in Animal Studies
